

HazOp Training Course for Leaders

A 4-day practical training course which covers all stages of hazard studies and how to lead them. It is primarily intended for people who already have some experience of HazOp and now want to go on to facilitate hazard study meetings.

See www.methodsands.com/hazop

Why you should do this course

For those who want to become leaders

For existing HazOp participants

Engineers Ireland Approved

93.9% delegate rating

"Delivered in an interesting, engaging and genuine manner throughout. I will be thoroughly recommending this to anyone willing to listen."

"Opened my eyes to how it's been done incorrectly for so long."

"My knowledge of how to lead a hazard study has vastly improved."

"Excellent whether you are already a practicing chair or new to HazOp."

Trainer Profile

David Sparkes - Technical Director - Method Process Safety

I'm an experienced process engineer with a solid background in plant support, capital projects and control system design. My work with =Method eventually led to me becoming Technical Director of Method Process Safety Ltd.
