

HazOp Training Course for Team Members

A 1-day practical training course designed to help you understand and follow a structured approach to evaluating hazards at "HazOp", also known as Stage 3 of the IChemE 6-stage approach to Hazard Study.

See www.methodsands.com/hstm

Why you should do this course

For prospective HazOp team members	Assumes no prior knowledge	Classroom or in-house formats
------------------------------------	----------------------------	-------------------------------

90.9% delegate rating

"I enjoyed how the trainer engaged everyone in the course, answered any questions from everyone. Really I would rate him 100 out of 100."

"David kept us engaged throughout which from my experience of being in other safety trainings is quite difficult."

"Very useful, especially if not familiar with HazOps." "Good information and examples of carrying out HazOps."

Trainer Profile

David Sparkes - Technical Director - Method Process Safety

I'm an experienced process engineer with a solid background in plant support, capital projects and control system design. My work with =Method eventually led to me becoming Technical Director of Method Process Safety Ltd.
